

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : Ascorbic Acid 90% Granulation

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-
stance/Mixture : Ingredient for capsules and/or tablets

1.3 Details of the supplier of the safety data sheet

Company : DSM Nutritional Products Europe Ltd
PO Box 2676
CH-4002 Basel

Telephone : +41618157777
Telefax : +41618157770
E-mail address of person
responsible for the SDS : sds.nutritionalproducts@dsm.com

1.4 Emergency telephone number

+41 848 00 11 77 (Carechem 24 International)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.3 Other hazards

Risk of dust explosion.

SECTION 3: Composition/information on ingredients

Brief description of the prod-
uct : Mixture (preparation) containing active ingredient and auxiliary
substances

3.1 Substances

Not applicable

3.2 Mixtures

Hazardous components

Remarks : No hazardous ingredients

Further ingredients

Chemical name	CAS-No. EC-No. Registration number	GHS Classification	Concentration [%]
ascorbic acid (Vitamin C)	50-81-7 200-066-2		>= 89 - < 95

Starch	9005-25-8 232-679-6		>= 5 - <= 10
--------	------------------------	--	--------------

SECTION 4: First aid measures

4.1 Description of first aid measures

- General advice : No hazards which require special first aid measures.
- If inhaled : Move to fresh air.
If symptoms persist, call a physician.
- In case of skin contact : Take off contaminated clothing and shoes immediately.
Wash off with soap and plenty of water.
- In case of eye contact : Flush eyes with water as a precaution.
Remove contact lenses.
Protect unharmed eye.
Keep eye wide open while rinsing.
- If swallowed : Clean mouth with water and drink afterwards plenty of water.
Do not give milk or alcoholic beverages.
Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

- Symptoms : No specific symptoms known.

4.3 Indication of any immediate medical attention and special treatment needed

- Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

- Suitable extinguishing media : Water
Foam

5.2 Special hazards arising from the substance or mixture

- Specific hazards during fire-fighting : None known.

5.3 Advice for firefighters

- Special protective equipment for firefighters : In the event of fire, wear self-contained breathing apparatus.
- Further information : Consider dust explosion hazard.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

- Use personal protective equipment.
Avoid dust formation.

6.2 Environmental precautions

Try to prevent the material from entering drains or water courses.

6.3 Methods and material for containment and cleaning up

Sweep up and shovel.

6.4 Reference to other sections

For personal protection see section 8.
For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Advice on safe handling : For personal protection see section 8.
- Advice on protection against fire and explosion : Avoid dust formation. Provide appropriate exhaust ventilation at places where dust is formed. Take precautionary measures against static discharges.
- Hygiene measures : General industrial hygiene practice.

7.2 Conditions for safe storage, including any incompatibilities

- Requirements for storage areas and containers : Protect from humidity.
To maintain product quality, do not store in heat or direct sunlight.
Keep container tightly closed and dry.
- Advice on common storage : No special restrictions on storage with other products.

7.3 Specific end use(s)

- Specific use(s) : Not applicable

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
starch	9005-25-8	TWA (inhalable dust)	10 mg/m ³	GB EH40
		TWA (Respirable dust)	4 mg/m ³	GB EH40
The COSHH definition of a substance hazardous to health includes dust of any kind when present at a concentration in air equal to or greater than 10 mg.m ⁻³ 8-hour TWA of inhalable dust or 4 mg.m ⁻³ 8-hour TWA of respirable dust. This means that any dust will be subject to COSHH if people are exposed above these levels. Some dusts have been assigned specific WELs and exposure to these must comply with the appropriate limit.				

8.2 Exposure controls

Personal protective equipment

- Eye protection : Safety glasses
- Hand protection : Glove material: for example nitrile rubber

Skin and body protection	: Lightweight protective clothing
Respiratory protection	: No personal respiratory protective equipment normally required. In case of high dust concentration use a dust mask applicable to local conditions.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance	: granular, powder
Colour	: white - off-white
Odour	: No information available.
Odour Threshold	: No information available.
pH	: No data available
Melting point/range	: not determined
Boiling point/boiling range	: not determined
Flash point	: Not applicable
Flammability (solid, gas)	: May form combustible dust concentrations in air.
Vapour pressure	: Not applicable
Relative vapour density	: Not applicable
Density	: not determined
Water solubility	: not determined
Partition coefficient: n-octanol/water	: Not applicable
Auto-ignition temperature	: No self ignition observed in the Grewer oven at temperatures below melting point.
Thermal decomposition	: Decomposes on heating. Potential for exothermic hazard Heating can release hazardous gases.
Explosive properties	: Not explosive
Oxidizing properties	: No data available

9.2 Other information

Combustibility index for deposited dust	: 2 (23 °C) : 3 (100 °C)
Dust explosion class	: St(H)1 (Milled sample, Median value of the tested sample 0.040 mm, Loss on drying 1.3 %; The value was determined in the modified Hartmann tube.)
Minimum ignition energy	: 10 - 30 mJ (Milled sample, Median value of the tested sample 0.040 mm, Loss on drying 1.3 %, EN 13821) The Minimum ignition energy (MIE) of a dust/air mix depends on the particle size the water content and the temperature of the dust. The finer and the dryer the dust the lower the MIE.

- : General remark: The indicated dust explosion characteristics are only valid for this product and are sensitive to the sample's parameters.
- Powder volume resistivity : ca. 1E+10 Ohmm (Product sample, Median value of the tested sample 0.427 mm, Loss on drying 0.9 %)
The material can accumulate static charge and can therefore cause electrical ignition.
- Minimum ignition temperature of a dust/air mix : 430 °C (Median value of the tested sample 0.427 mm) determined in the BAM oven

SECTION 10: Stability and reactivity

10.1 Reactivity

No hazards to be specially mentioned.

10.2 Chemical stability

Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

Dust may form explosive mixture in air.

10.4 Conditions to avoid

Exposure to air.
(as aqueous solution)

Heat

10.5 Incompatible materials

Oxidizing agents
Bases

Strong acids and strong bases
Strong oxidizing agents

10.6 Hazardous decomposition products

No decomposition if used as directed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

- Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg
(calculated from LD50 of components)
- Skin irritation : No skin irritation (Rabbit, OECD Test Guideline 404, 4 h)
Information refers to the main component.
- Eye irritation : Dust contact with the eyes can lead to mechanical irritation.
- Sensitisation : Did not cause sensitization. (Guinea pig, Optimization Test (Maurer))
Information refers to the main component.

Genotoxicity in vitro	: No data available
Genotoxicity in vivo	: No indication for human genotoxicity known. Information refers to the main component.
Carcinogenicity	: (several species) No indication for carcinogenicity known. Information refers to the main component.
Reproductive toxicity	: This information is not available.
Teratogenicity	: not teratogenic not embryotoxic Information refers to the main component. (several species)
STOT - single exposure (Acute exposure)	: The substance or mixture is not classified as specific target organ toxicant, single exposure.
STOT - repeated exposure	: NOAEL (Oral, Rat) : > 2000 mg/kg bw/d Chronic toxicity study (2 years) Information refers to the main component.
Experience with human exposure	: RDA (Recommended Daily Allowance) 60 mg Information refers to the main component.
Experience with human exposure: Skin contact	: May be slightly irritating, especially on damp skin.
Experience with human exposure: Ingestion	: Oral intake up to 9 g ascorbic acid per day does not produce any serious toxic effects. However, diarrhoea can occur even with lower consumption levels.
Aspiration toxicity	: No aspiration toxicity classification

SECTION 12: Ecological information

12.1 Toxicity

Toxicity to fish	: Oncorhynchus mykiss (rainbow trout) LC50 (96 h) 1,020 mg/l Information refers to the main component. (OECD Test Guideline 203)
------------------	-------------------------------------------------------------------------------------------------------------------------------------------

12.2 Persistence and degradability

Biodegradability	: Well inherently biodegradable. 100 % (15 d) 97 %, (5 d) (OECD Test Guideline 302B)
------------------	-----------------------------------------------------------------------------------------------

Information refers to the main component.

12.3 Bioaccumulative potential

Bioaccumulation : No data available

Partition coefficient: n-octanol/water : Not applicable

12.4 Mobility in soil

Distribution among environmental compartments : No data available

12.5 Results of PBT and vPvB assessment

Assessment : not determined

12.6 Other adverse effects

Additional ecological information : There is no data available for this product.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product : Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION 14: Transport information

14.1 UN number

Not regulated as a dangerous good

14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

SECTION 15: Regulatory information

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

Ascorbic Acid 90% Granulation

5007577

Version 2.2

Revision Date 08.11.2017

Date of last issue: 13.03.2015

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

NFPA Classification : Health hazard: 0
Fire Hazard: 1
Reactivity Hazard: 1

15.2 Chemical safety assessment

Not applicable

SECTION 16: Other information
